

2022 Report - Volume LIII

State of North Carolina Utilities Commission

COMMISSIONERS

Charlotte A. Mitchell, Chair Kimberly W. Duffley Karen M. Kemerait Jeffrey A. Hughes William M. Brawley Floyd B. McKissick, Jr. Tommy Tucker

LETTER OF TRANSMITTAL

January 27, 2025

The Honorable Josh Stein Governor of North Carolina Raleigh, North Carolina

Dear Governor Stein:

We hereby present for your consideration the 2022 Report of the North Carolina Utilities Commission pursuant to Section 17 of the Public Utilities Act of 1963 as amended in 1977 (G.S. 62-17). The report covers the major activities of the Commission through December 2022 with statistical and analytical data for the operations of the utilities through 2021.

Respectfully submitted,

Charlotte A. Mitchell, Chair Kimberly W. Duffley Karen Kemerait Jeffrey A. Hughes Floyd B. McKissick, Jr. William M. Brawley Tommy Tucker

Prepared by

I. NORTH CAROLINA UTILITIES COMMISSION ORGANIZATION AND OPERATIONS

A. GENERAL

There were seven Commissioners and 65 Commission Staff positions as of December 31, 2021. Commissioners are appointed by the Governor subject to confirmation by the General Assembly by joint resolution. Brief biographies of the Commissioners are provided at the end of this section. An organizational chart of the Commission as of December 31, 2021, is depicted in Figure 1-1. A list of all Commissioners who have served on the Commission, including its predecessor agencies, is provided in Tables 1-7 and 1-8.

| Director, Clerk and IT Division | Kimberly Jones |
| Director, Fiscal Management Division | Patricia Jeter |
| Director, Legal Division | Sam Watson |
| Director, Operations Division | Freda Hilburn |

B. NUMBER OF COMPANIES REGULATED

As of December 31, 2021, there were 3,811 companies regulated by the Commission, distributed among the utility groups shown in Table 1-1 below.

Table 1-1

Major Utilities Regulated and Reporting to the Commission as of December 31, 2021

| <u>Utility</u> | <u>Number</u> |
|----------------------------------|---------------|
| Bus/Broker | 9 |
| Electric | 5 |
| Electric Cooperative | 32 |
| Electric Merchant Plant | 14 |
| Electric Reseller | 60 |
| Ferry | 8 |
| Natural Gas | |
| Local Distribution Company | 4 |
| Propane Distribution Company | 1 |
| Intrastate Pipeline | 1 |
| Gas Reseller | 1 |
| Motor Carrier of Household Goods | 345 |
| Small Power Producer | 1,121 |
| Telephone | |
| Local & Long Distance | 116 |
| Local Exchange | 63 |
| Long Distance Carrier | 95 |
| Payphone Service Provider | 29 |
| Shared Tenant Service | 5 |
| Water/Wastewater | 92 |
| Water Reseller | 1,810 |

C. ORDERS AND FILINGS

The Commission accepted a total of 24,384 filings and issued a total of 3,199 orders in its proceedings related to these regulated utilities during calendar year 2021. A list of these orders and filings by utility industry groups is shown in Table 1-2.

Table 1-2

Filings and Orders by Industry Group For Calendar Year 2021

| Industry | <u>Orders</u> | <u>Filings</u> |
|--|---------------|----------------|
| Electric | 536 | 2,363 |
| Electric Reseller | 32 | 94 |
| Telephone | 143 | 482 |
| Shared Tenant Service | 2 | 0 |
| Natural Gas | 149 | 1,157 |
| Water/Wastewater, including Resellers | 1,827 | 4,632 |
| Household Goods Movers | 152 | 604 |
| Payphone Service | 7 | 10 |
| Other (Bus/Broker, Elec. Merchant Plant, EMC, Ferry, Small Power Producer, & Misc.) | 351 | 15,042 |

D. HEARINGS

The Commission holds hearings in many of its proceedings, all of which are open for participation by the public and other interested parties. The Commission's weekly Staff Conferences are open to the public, and a schedule of hearings is posted to the Commissions' website, www.ncuc.gov. In addition to being open to the public, most proceedings held in the Commission's main hearing room in Raleigh are now livestreamed. Cameras and other necessary equipment were installed to allow the Commission to conduct remote proceedings during the novel coronavirus (COVID-19) pandemic.

In addition to posting on the Commission's website, advance public notice is given by direct mail or newspaper publication for all hearings of general interest, especially rate case hearings. Table 1-3 shows the number of formal hearings held by the Commission, both in Raleigh and in the service areas of the utilities involved. Many of these hearings were held in the evening to accommodate members of the public who could not attend daytime hearings.

Table 1-3

Commission Hearings By Calendar Year

| | <u>2018</u> | <u>2019</u> | <u>2020</u> | <u>2021</u> |
|--|-------------|-------------|-------------|-------------|
| Total Number of Formal Hearings Held | 114 | 121 | 119 | 99 |
| Number of Hearings Held Outside Raleigh | 11 | 14 | 6 | 2 |
| Percent of Hearings Held Outside Raleigh | 10% | 12% | 5% | 2% |

The primary reason for holding hearings outside of Raleigh in a utility's service area is to make it easier for the utility's consumers and the general public to attend and testify if they so choose. Public attendance at such hearings provides a broader knowledge of the scope and complexities of issues with which the Commission, the Public Staff, and all other participants must consider.

Commission hearings continue to generate keen public interest. The Attorney General's Office intervenes in many cases on behalf of consumers, while other consumers provide their own legal counsel. In addition, the Public Staff participates in most cases on behalf of the using and consuming public and makes its recommendations to the Commission.

The Commission currently has two court reporters on its staff and contracts with outside court reporters as necessary. The number of pages transcribed by the court reporters for the past four years are shown in Table 1-4. Table 1-4

Number of Hearing Pages Transcribed By Calendar Year

| | <u>2018</u> | <u>2019</u> | <u>2020</u> | <u>2021</u> |
|-------------------------|-------------|-------------|-------------|-------------|
| Commission Reporters | 3,628 | 4,138 | 3,607 | 3,082 |
| Outside Reporters | 9,480 | 8,030 | 16,195 | 2,245 |

E. REGULATORY FEES

On August 12, 1989, the General Assembly enacted Senate Bill 1320 (Session Law 1989-787), adding Section 62-302 to the Public Utilities Act and imposing a regulatory fee on North Carolina jurisdictional revenues earned by public utilities on and after July 1, 1989, to support the operation of the Commission and Public Staff. The fee is imposed on a quarterly basis and is due approximately 45 days after the end of each calendar quarter.

With the passage of House Bill 356 (Session Law 2015-134), Section 62-302 was further amended effective July 1, 2015, to authorize the Commission Chair and Public Staff Executive Director to annually adjust the regulatory fee percentage to collect the estimated cost of operating the Commission and the Public Staff for the next fiscal year, including a reasonable margin for a reserve fund.

The total amount of regulatory fees collected for the four quarters of fiscal year 2021 was \$14,554,310.21. The regulatory fee rate for noncompetitive jurisdictional revenues, which applies to most utilities, was 0.13% through all of 2021. Because they are generally deregulated, the regulatory fee rate for most telecommunications utilities was slightly lower at 0.02%. Table 1-5 breaks down the regulatory fee receipts by utility industry group. Table 1-6 details the receipts and expenditures for the Commission for the fiscal year ending June 30, 2021.

Table 1-5

Regulatory Fee Receipts by Industry Group For Fiscal Year Ending June 30, 2021

| <u>Industry</u> | Reg Fees Paid |
|--|-----------------|
| Electric | \$11,289,451.59 |
| Electric Reseller | \$4,614.93 |
| Telephone | \$357,159.59 |
| Shared Tenant Service | \$50.00 |
| Natural Gas | \$2,067,578.91 |
| Water/Wastewater, including Resellers | \$365,862.79 |
| Household Goods Movers | \$156,179.10 |
| Payphone Service | \$27,673.87 |
| Other (Bus/Broker, Elec. Merchant Plant, EMC, Ferry, Small Power Producer, & Misc.) | \$15,937.79 |

Brief Biographies of Commissioners

Charlotte A. Mitchell, Chair

Chair Mitchell was appointed to the Commission by Governor Roy Cooper for a term that commenced on July 1, 2017, and ends on June 30, 2023. Born and raised in Houston, Texas, Mitchell moved to North Carolina to study at UNC-Chapel Hill as a Morehead Scholar. She earned a B.A. in Anthropology and Romance Languages at UNC-Chapel Hill, where she also lettered in Women's Soccer. She earned a Juris Doctor from UNC-Chapel Hill, serving as Publication Editor for the North Carolina Law Review, as well as a Master of Environmental Economics and Policy from Duke University's Nicholas School of the Environment.

Prior to joining the Commission, Mitchell engaged in the private practice of law, focusing on energy, environmental, and land use regulatory matters. She is a member of the North Carolina Bar Association, and she is a former member of both the N.C. Mining and Energy Commission and N.C. Sedimentation Control Commission. She is active in civic and community affairs, having recently served on the Board of Directors of the Women's Center of Wake County and as a Wake County Guardian ad Litem. She resides in Raleigh, North Carolina.

ToNola D. Brown-Bland, Commissioner

Commissioner Brown-Bland was appointed to the Commission by Governor Beverly Eaves Perdue in 2009. She is the Co-Chair of the National Association of Regulatory Utility Commissioners' Washington Action Committee and a member of both NARUC's Critical Infrastructure Committee and Gas Committee. In addition, she currently serves on the Board of Directors of the National Regulatory Research Institute and the Advisory Council for the Center for Public Utilities at New Mexico State University. She is Past President of the Southeastern Association of Regulatory Utility Commissioners.

Brown-Bland is a Phi Beta Kappa graduate of UNC-Chapel Hill and received her Juris Doctorate from Duke University School of Law.

Brown-Bland began her professional career as federal Law Clerk to the Honorable Alexander B. Denson, United States Magistrate Judge for the Eastern District of North Carolina, and thereafter entered private practice in Greensboro, N.C. After several years engaging in general civil practice, she became in-house attorney for AT&T Corp. (subsequently Lucent Technologies), where she was promoted to Senior Attorney and primarily supported the company's federal contracting and related commercial technology licensing and business lines in Greensboro.

Brown-Bland joined the North Carolina Department of the Secretary of State in 2001, serving as Director of the Business License Information Office and of the Charitable Solicitations Licensing Section. Brown-Bland's experience in utility regulation began in 2002 when she accepted a position with the Commission as an attorney in the Administrative Division. From 2005 until her appointment to the Commission, she served as Associate General Counsel with the City of Greensboro.

Brown-Bland has a history of community and civic service, having served on several boards including the Greensboro Bar Association, the Alamance County Historical Museum, and Western Piedmont Residential Services, a nonprofit organization that provided residential service to autistic adults. She also presently serves as a member of the Board of Trustees of her church.

Brown-Bland and her husband, André, reside in her native Alamance County.

Lyons Gray, Commissioner

Commissioner Gray was appointed to the Commission by Governor Pat McCrory for a term that commenced on January 26, 2016, and expired on June 30, 2021.

Gray, a businessman from Winston-Salem, was sworn in as Secretary of Revenue on January 5, 2013, by Governor Pat McCrory. Prior to this appointment, he spent a year as the Senior Advisor to the President of the University of North Carolina system, which comprises 17 campuses across North Carolina. From 2005-2009, Gray served as the Chief Financial Officer of the United States Environmental Protection Agency. Nominated by President George W. Bush, and confirmed unanimously by the US Senate, he served as the principal agency representative to Congress, the Office of Management and Budget, and to the various states. His experience in Washington gave him an insider's look at the way in which Washington works (or doesn't work). Prior to his service in the Bush administration, he served as the President and CEO of the Downtown Winston-Salem Partnership. He initiated a number of projects that have revitalized the downtown core.

From 1989 to 2002, Gray served six consecutive terms in the NC General Assembly, serving as Chairman of the House Finance Committee from 1995 to 1999. He was also Vice Chairman of the House Ethics Committee. Gray was President and Owner of Salem Systems, Inc. and Triangle Campers, Inc. both of Winston-Salem, and served as Vice President of Intercontinental Consultants Corporation. Gray spent approximately 12 years working in Sales and Marketing for R.J. Reynolds Tobacco Company.

He currently serves on the board of the Lettie Pate Whitehead Foundation, Inc., has previously served on the boards of UNC Chapel Hill's General Alumni Association, Salem Academy and College, the UNC School of the Arts Foundation, and the Piedmont Triad Partnership. Gray has also served on the boards of visitors of the Winston-Salem State University Foundation and the Bowman Gray School of Medicine at Wake Forest University. Gray has held leadership roles in multiple civic and philanthropic organizations, including AIDS Care Service of Winston-Salem, the North Carolina Nature Conservancy, Leadership Winston-Salem, the American Red Cross, and the Salvation Army Boys Club.

He and his wife, Connie, live in Winston-Salem.

Daniel Clodfelter, Commissioner

Commissioner Clodfelter was appointed to the Commission by Governor Roy Cooper for a term that commenced on July 1, 2017, and ends on June 30, 2023.

A native of Thomasville, N.C., Clodfelter earned bachelor's degrees from Davidson College and Oxford University as a Rhodes Scholar, and a law degree from Yale Law School. He served as law clerk for Judge James B. McMillan, Jr., of the U.S. District Court for the Western District of North Carolina from 1977-78.

Before joining the Commission, Clodfelter was in private practice with the law firm of Parker Poe Adams & Bernstein, LLP, in its Charlotte office, where he was a member of its Bankruptcy, Reorganization and Creditors' Rights practice group. Prior to joining Parker Poe in 2014, he had been in private practice for many years with Moore & Van Allen, PLLC.

In 1987, Clodfelter was elected to the Charlotte City Council where he served three terms ending in 1993. In 1998, he was elected to the North Carolina Senate where he served until 2014, representing a portion of Mecklenburg County. During his service in the North Carolina Senate, he held numerous positions, including co-chair of the Committee on Finance, chairman of the Judiciary One Committee, chairman of the Environmental Review Commission, co-chair of the Joint Legislative Program Evaluation Committee, and co-chair of the Joint Legislative Ethics Committee.

In April 2014, the Charlotte City Council appointed Clodfelter to serve as Mayor of Charlotte to complete the unexpired term of a former mayor. He served in that position until December 2015. Clodfelter has also been active over the years as an officer and board member of numerous local and statewide community and civic organizations. He has served as a Trustee of the Z. Smith Reynolds Foundation since 1982.

Clodfelter and his wife Elizabeth currently reside in Charlotte. They have two adult children.

Kimberly W. Duffley, Commissioner

Commissioner Duffley was appointed to the Commission on July 1, 2019, by Governor Roy Cooper. Her terms ends on June 30, 2025.

A native of North Carolina, Commissioner Duffley received a Bachelor of Arts in Philosophy and Political Science from UNC-Chapel Hill. She earned a Juris Doctor from Mercer School of Law. Prior to joining the Commission as a Staff Attorney, Duffley was an Assistant Attorney General in the Environmental Division of the North Carolina Attorney General's Office. Until her appointment as a Commissioner, Duffley was a Senior Staff Attorney with the Commission and held a leadership position on the National Association of Regulatory Utility Commissioners' Staff Subcommittee on Electricity. She is a Board-Certified Specialist in Utilities Law.

Duffley's interests include art, travel and reading. She and her husband live in Raleigh and have two children.

Jeffrey A. Hughes, Commissioner

Commissioner Hughes was appointed to the Commission by Governor Cooper for a term commencing July 1, 2019, and expiring June 30, 2025. He has more than 25 years of experience assisting communities in addressing finance and policy challenges related to the provision of environmental services and programs.

Hughes is the author of numerous reports, guides, and articles on environmental finance and environmental policy analysis subjects. He has worked with a range of state and national organizations that focus on utility and environmental issues. He is an active member of Council of Infrastructure Finance Authorities (CIFA) and the American Water Works Association (AWWA). Hughes joined the Commission after having been with the UNC School of Government since 2002. He was the director of the Environmental Finance Center at the School of Government.

His research and teaching interests include service pricing, economic regulation, and public finance. He was named Albert and Gladys Hall Coates Distinguished Term Lecturer for 2012-2014. Prior to joining the university, Hughes worked as a finance specialist for RTI International where he managed utility finance and governance projects throughout Central Europe and Africa, including a year-long position as an infrastructure finance advisor to the Polish government. Hughes also worked briefly as a utility director for a small rural community in North Carolina. He earned a master's degree in environmental engineering from UNC-Chapel Hill and a bachelor's degree in engineering from Duke University.

Floyd B. McKissick, Jr., Commissioner

Commissioner McKissick was appointed to the Commission by Governor Roy Cooper for a term commencing July 1, 2019, and expiring June 30, 2025. McKissick was an attorney at the time of his appointment to the Commission. He had served as a member of the North Carolina Senate since 2007, where he served as the Senior Deputy Democratic Leader.

McKissick is the son of the late civil rights activist and attorney, Floyd B. McKissick. He received an A.B. Degree in Geography from Clark University in Worcester, Massachusetts. He received a Master's degree in Regional Planning from UNC-Chapel Hill, a Master's degree in Public Administration from Harvard University, and a Juris Doctor Degree from the Duke University School of Law in Durham, North Carolina.

McKissick has practiced law since 1984 with several law firms, including Dickstein Shapiro & Morin in Washington, D.C., and Faison, Brown, Fletcher & Brough in Durham, North Carolina. He established a practice known as McKissick & McKissick in 1990, where he specialized in Civil Litigation. He has represented Fortune 500 corporations, as well as small businesses and many individuals.

McKissick is a member of the following NARUC committees: International Relations, Critical Infrastructure, Consumers and the Public Interest, and Energy Resources and the Environment. He serves as Vice-Chair on the Committee for Consumers and the Public Interest. McKissick is 2nd Vice President of the Southeastern Association of Regulatory Utility Commissioners. McKissick has moderated panels at conferences sponsored by NARUC, as well as the New Mexico State University Center for Public Utilities.

NOTE: Appointments for Utilities Commissioners have never been on a calendar year basis; therefore, the years of service given in parentheses represent the year in which the Commissioner was appointed and the year in which service ended.

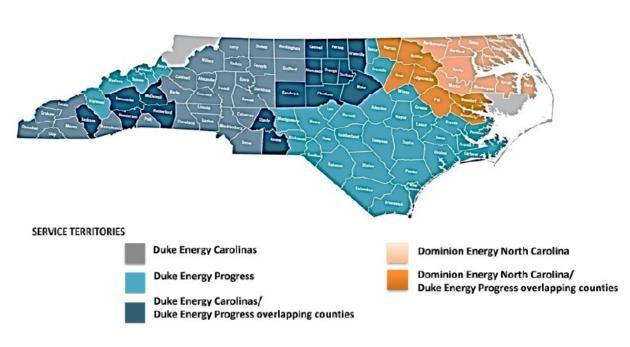

II. ELECTRIC INDUSTRY

A. GENERAL

There are three electric investor-owned utilities (IOUs) operating in North Carolina subject to the Commission's jurisdiction. Duke Energy Progress, LLC (DEP), and Duke Energy Carolinas, LLC (DEC), the two largest electric IOUs in North Carolina, are each wholly owned subsidiaries of Duke Energy Corporation (Duke), headquartered in Charlotte, and serve customers in both North and South Carolina. Virginia Electric and Power Company (VEPCO), headquartered in Richmond, Virginia, does business in North Carolina as Dominion Energy North Carolina (DENC). The territories of the three IOUs are shown in Figure 2-1.

DEP, headquartered in Raleigh, and DEC, headquartered in Charlotte, operate electric generation plants fueled by nuclear, coal, natural gas, oil, conventional and pumped storage hydroelectric, and renewable energy. In 2021 DEP provided electricity to 1,472,004 North Carolina customers; DEC, 2,129,384. The North and South Carolina commissions govern retail electric rates in their respective states, and the Federal Energy Regulatory Commission governs wholesale electric rates. DEP and DEC together provide approximately 96% of the utility-supplied electricity consumed in the state. Approximately 22% of the two IOUs' 2021 electric sales in North Carolina were to the wholesale market, consisting primarily of sales to electric membership corporations (EMCs) and municipally owned electric systems.

VEPCO is the principal subsidiary of Dominion Resources, Inc., a publicly traded headquartered holdina company in VEPCO's Richmond, Virginia. electric service territory stretches from the northern Virginia suburbs of Washington, D.C., through Virginia to the northeastern section of North Carolina, where it provided electricity to 124,325 North Carolina customers in 2021.

North Carolina Electric Investor-Owned Utilities Service Area Map

Figure 2-1

VEPCO's existing generating resources, located primarily in Virginia, are at multiple sites distributed geographically around its service territory. VEPCO's electric generation plants are fueled by nuclear, coal, natural gas, oil, conventional and pumped storage hydroelectric, and renewable energy.

Additionally, two small university-owned electric utilities in North Carolina are subject to the Commission's jurisdiction: New River Light and Power, owned by Appalachian State University and located in Boone, and Western Carolina University, located in Cullowhee.

The remaining electric power suppliers in North Carolina consist of municipally owned utilities and EMCs, and the Commission does not regulate these utilities' rates to their customers.

B. STATISTICAL SUMMARY DATA

As shown in Table 2-1, the total operating revenues for North Carolina operations for the three electric IOUs increased 4.0% in 2021 compared to 2020. North Carolina net operating income for the companies decreased 35.9% in 2021 over 2020. Total available net income for common shareholders of the IOUs was \$11,778.135 for 2021 compared to \$11,156,311 for 2020. The number of common shares outstanding at year-end was 274,723,000 in 2021. The average earnings per share (year-end outstanding at December 31, 2021) were \$42.87. Total salaries and wages paid North Carolina employees by the IOUs for 2021 was \$1,654,653, an increase of 5.6% from 2020. In 2021 the number of employees residing in North Carolina was 13,606 compared to 13,904 in 2020.

C. PLANT INVESTMENT

As of December 2021, the combined North Carolina total gross investment in plant for the three electric IOUs was \$70,141,842. This represents an increase of 1.8% from the preceding year.

D. RETAIL CUSTOMERS, REVENUE, USAGE

In 2021, the three electric IOUs experienced an overall customer growth rate of 1.9% for their North Carolina operations. The net customer increase from December 31, 2020, to December 31, 2021, for these utilities was 70,104, bringing the total number of retail customers in all customer classes in 2021 to 3,725,713, as shown on Table 2-1.

Revenue from retail sales to residential customers, which constitute about 87% of the total electric customers in the State, were about 42% of the total for the three IOUs. Revenue from commercial customers contributed nearly 26% of the total, and from industrial customers, 12%. Revenue from wholesale customers comprised most of the remaining 20%.

The average annual consumption of electricity per residential customer in 2021 for the three IOUs was 13,472 kilowatt-hours (kWh). This was an 8.3% increase from 2020. The U.S. average annual residential consumption for 2021 was 10,632 kWh. This is 16.65% lower than the North Carolina average residential usage. The average monthly electricity use by North Carolina residential customers of the three IOUs is 1,063 kWh compared to the U.S. average of 886 kWh.

The average revenue per kilowatt-hour for North Carolina residential customers of the three IOUs in 2021 is 10.71 cents versus the national average of 13.30 cents.

E. NATIONWIDE COMPARISON OF RESIDENTIAL BILLS

Table 2-2 compares the average monthly revenue per residential customer for all North Carolina electric utilities to those of neighboring states in the region, as well as to the national average. For 2021, the average monthly residential revenue in North Carolina ranks lowest in the region — lower than the national average — and 28th lowest in the nation.

Table 2-2

F. GENERAL RATE CASES

On March 31, 2021, the Commission issued its Order Accepting Stipulations, Granting Partial Rate Increase, and Requiring Customer Notice Docket No. E-7. Sub 1214 approving an overall revenue increase for DEC of \$328.3 million in base rates or approximately 7.0% over the 2018 test year revenues. In its September 30, 2019 application, DEC proposed to increase its rates and charges to produce an additional \$445.3 million in retail base revenues, which would result in an overall increase of approximately 9.2%. The approved rate increase will be partially offset by a decrement rider refunding to customers excess deferred income taxes (EDIT) over five years, with the end result being an increase after expiration of the EDIT rider for a typical residential customer using 1,000 kWh per month of \$8.45 per month compared to the customer's current bill.

On April 16, 2021, the Commission issued its Order Accepting Stipulations, Granting Partial Rate Increase and Requiring Customer Notice in Docket No. E-2, Sub 1219 approving an overall revenue increase for DEP of \$308.2 million in base rates or approximately 8.2% over the 2018 test year revenues. In its October 30, 2019 application, DEC proposed to increase its rates and charges to produce an additional \$585.9 million in retail base revenues, which would result in an overall increase of approximately 15.6%. The approved rate increase will be partially offset by a decrement rider refunding to customers EDIT over five years, with the end result being an increase after expiration of the EDIT rider for a typical residential customer using 1,000 kWh per month of \$10.81 per month compared to the customer's current bill.

III.NATURAL GAS INDUSTRY

A. GENERAL

The Commission regulated four natural gas local distribution companies (LDCs) in 2021: Piedmont Natural Gas Company, Inc. (Piedmont); Public Service Company of North Carolina (PSNC); Frontier Natural Gas Company, LLC (Frontier); and Toccoa Natural Gas (Toccoa). Figure 3-1 is a map illustration of natural gas service areas in North Carolina.

Piedmont is owned by Duke Energy Corporation and is a diversified energy and services company primarily engaged in the purchase, distribution, and sale of natural gas to more than 1.1 million residential, commercial, and industrial customers in Carolina. North South Carolina. and Tennessee. At the end of 2021, Piedmont 786,949 served approximately sales customers and 568 transportation customers in North Carolina. Piedmont and its subsidiaries are also engaged in the acquisition, marketing, transportation, and gas. storage of natural Piedmont's franchised service territory includes all of 60 counties and parts of six more. Piedmont is headquartered in Charlotte, North Carolina.

PSNC is owned by Dominion Energy and delivers natural gas products and services to residential, commercial, industrial, transportation, and electric power generation customers. At the end of 2021, PSNC served approximately 622,534 sales customers and 417 transportation customers in 28 counties in the piedmont and mountain areas of North Carolina. PSNC is headquartered in Gastonia, North Carolina.

Frontier is owned by Ullico Infrastructure Hearthstone Holdco, LLC and serves customers in Ashe, Surry, Warren, Watauga, Wilkes, and Yadkin, Counties. At the end of 2021 Frontier served approximately 4,817 sales customers and 31 transportation customers in North Carolina. Frontier is headquartered in Elkin, North Carolina. Toccoa is a municipal gas system serving the city of Toccoa, Georgia, and customers in Macon County, North Carolina. As of June 2021 Toccoa served approximately 6,681 customers, including approximately 786 customers in North Carolina.

The Commission further regulates the rates of Cardinal Pipeline Company, LLC (Cardinal), an intrastate natural gas pipeline company operated by Transcontinental Gas Pipe Line Company, LLC, and owned by Williams Partners Operating LLC, PSNC, and Piedmont. Cardinal provides firm natural gas transportation capacity to its wholesale customers in North Carolina.

B. STATISTICAL SUMMARY DATA

The total gross operating revenues for the Class A natural gas companies in North Carolina. Piedmont and PSNC. was approximately \$1.7 billion in 2021. Operating expenses, including taxes. increased 56.2% in 2021. The average number of full-time employees in 2021 totaled 2,066, a decrease of 14 people, or 0.7%, from 2020. The total wages paid these employees equaled \$156 million, a 0.3% increase from the previous year. This information and other financial and operating statistical data for the years 2018 through 2021 are provided on Table 3-1.

C. PLANT INVESTMENT

As shown on Table 3-1, the LDCs continued expansion of services by investing in plant facilities for the 2021 calendar year. As of December 2021, Piedmont and PSNC's combined North Carolina total gross investment was \$11,649,709, an increase of 10.2% from the preceding year.

D. RETAIL CUSTOMERS, REVENUE, AND USAGE

As shown on Table 3-1, in 2021 the annual average number of natural gas sales customers for Piedmont and PSNC increased 1.9% from the previous year. A summary of total natural gas sales in dekatherms and revenues by customer classification for the years 2018-2021 for the two companies is shown on Table 3-2.

In 2021 industrial sales by PSNC and Piedmont totaled more than 10 million dekatherms and accounted for 1.7% of throughput. This reflects an 11.6% increase from the 2020 industrial sales. Residential sales accounted for 11.7% of the total dekatherm throughput, an increase of 11.3% from 2020.

The average annual residential usages and cost data for the Piedmont and PSNC for the years 2018-202 are shown in Table 3-3.

* NOTE: Dekatherm usage figures have been rounded; therefore, the total annual cost is not exact.

E. GENERAL RATE CASES AND OTHER ADJUSTMENTS TO RATES

On March 22, 2021, Piedmont filed a general rate case in Docket No. G-9, Sub 781 seeking an overall revenue increase of approximately \$109 million, or 10.4% over current revenues. Due to the COVID pandemic, two remote public witness hearings were held in July 2021, and a remote expert witness hearing was held in September 2021.

On April 1, 2021, PSNC filed a general rate case in Docket No. G-5, Sub 632 seeking an overall revenue increase of approximately \$53 million, or 9.3% over current revenues. Due to the COVID pandemic, a remote expert witness hearing was held in October 2021. The scheduled public witness hearings were canceled after no public witnesses notified the Commission that they desired to testify.

Each of these general rate cases were awaiting final orders by the Commission as of December 31, 2021.

Natural gas delivered to retail customers is passed through at the LDCs' cost, and customer rates are adjusted periodically, as needed, to reflect changes in the costs incurred by the LDCs to purchase natural gas. Table 3-4 shows the approved changes in the benchmark price of natural gas for PSNC and Piedmont during calendar year 2021.

TABLE 3-4 CLASS A COMPANY GAS TRACKING CHANGES APPROVED 2021

F. NATURAL GAS PIPELINE SAFETY

The Commission's Gas Pipeline Safety Section administers a state program adopting federal standards pertaining to the design, installation, inspection, testing, construction, extension, operation, replacement and maintenance of pipeline facilities used to transport natural gas in North Carolina. The Gas Pipeline Safetv Section inspects the four Commission-regulated natural gas utilities, eight municipal gas systems, two landfill gas systems, three intrastate transmission systems, six LNG facilities, and one city which has a Public Housing Authority gas system in North Carolina. These systems comprise 95 inspection units which are inspected on an annual basis for compliance with the North Carolina Gas Pipeline Safety Code. These systems include 3,403 miles of transmission mains and 33,745 miles of distribution mains serving 1,574,472 individual service lines in North Carolina.

Recognizing that multiple inspectors were working on the same day on different inspections during 2021, the Gas Pipeline Safety Section spent the equivalent of 26 natural 906 days inspecting gas operators. Of the 95 units inspected, 7 violations were detected. By the end of the year, all of the violations had been corrected. The cost of conducting the gas pipeline safety program for 2021 was \$1,002,615, of which \$643,014 was refunded to the State from the U.S. Department of Transportation.

IV. COMMUNICATIONS INDUSTRY

A. GENERAL

On December 31, 2021, there were 16 local exchange telephone companies (LECs), 211 interexchange long distance carriers (IXCs), 165 competing local providers (CLPs), and 5 shared-tenant service (STS) providers authorized by the Commission. A full list of currently regulated telephone companies, including IXCs and CLPs, can be found on the Commission's website at www.ncuc.net under Industries, Telecommunications, Regulated Company List.

B. LOCAL EXCHANGE SERVICE

Competition and Deregulation

In 2009, in enacting House Bill 1180 (Session Law 2009-238), the General Assembly found that relaxing certain restrictions for traditional telephone companies would relieve consumers of unnecessary costs and burdens, encourage investment, and promote timely deployment of more innovative offerings at more competitive prices for customers. To make the full range of competitive options and offerings available to consumers of communications services while maintaining inflation-based price controls for those existing customers who currently receive and wish to continue receiving only standalone basic residential lines from traditional telephone companies, House Bill 1180 added Section 62-133.5(h) to allow companies to elect to operate under Commission-approved price regulation plans or remain under traditional cost-ofservice regulation. As shown in Table 4-1, as of December 31, 2021, seven LECs and nine CLPs have elected subsection (h) price plans.

In 2011, the General Assembly enacted Senate Bill 343 (Session Law 2011-52) further amending N.C.G.S. § 62-133.5 by adding a new subsection (m), which if elected by a LEC, allows the company a greater degree of deregulation over the terms, conditions, rates, and availability of retail service than provided by either traditional cost-of-service regulation or subsection (h) price plans. Price increases for subsection (m) companies are no longer capped by inflation, and those companies are no longer required to serve as a carrier of last resort or submit annual reports. In exchange, they must open their service territory to competition by CLPs. As shown in Table 4-2, as of December 31, 2021, 27 companies, 9 LECs and 18 CLPs, have elected subsection (m) price plans.

Shared Use and Resale

In 1987, the General Assembly enacted Senate Bill 822 (Session Law 1987-445) amending N.C.G.S. § 62-110 by adding a subsection (d) authorizing new the Commission to allow shared use and resale of any telephone service provided to persons who occupy the same contiguous premises — shared tenant service (STS). In 1989, the General Assembly enacted House Bill 486 (Session Law 1989-451) further amending Section 62-110 by adding a new subsection (e) authorizing sharing and resale by nonprofit colleges and universities and their affiliated medical centers. There were five STS providers operating in North Carolina as of December 31, 2021. A list of these providers is provided in Table 4-3.

Payphone Service Providers

A payphone service provider is a subscriber to a local access line, offering telephone service to the public by means of a coin, coinless, or key-operated instrument. A total of 1,803 special certificates for payphone service have been issued, with 24 of these providers still certified as of December 31, 2021.

C. AREA CODES

On June 25, 2021, the Commission approved an all-services distributed overlay to provide relief for the current 910 area code in southeastern North Carolina. As shown in Figure 4-1, this brings the number of area codes serving North Carolina to ten. Customers in the current 910 area code may be assigned numbers with the new area code as soon as October 2022.

D. INTRASTATE (INTEREXCHANGE) LONG DISTANCE SERVICE

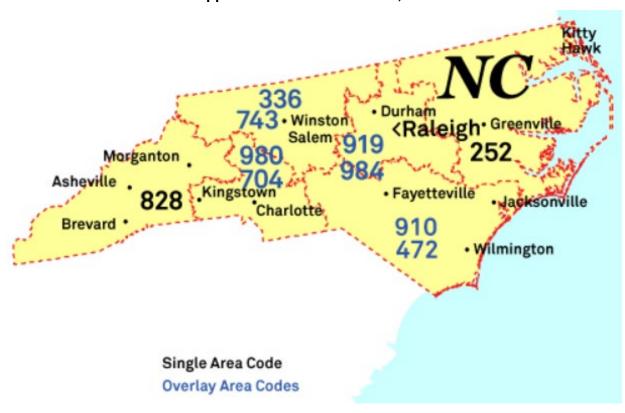

In 2003, Senate Bill 814 (Session Law 2003-91) provided that interLATA and intraLATA long distance service and long distance operator services were sufficiently

competitive and would no longer be regulated by the Commission. However, the Commission does continue to maintain certification authority and authority to hear and resolve complaints against providers of such services alleged to have made changes to the services of customers or imposed charges without appropriate authorization. As of December 31, 2021, 211 IXCs were certified to operate in North Carolina

E. STATISTICAL SUMMARY

As a result of industry competition and deregulation, financial information related to the telecommunications companies is no longer available to provide in this report.

V. WATER/WASTEWATER INDUSTRY

A. GENERAL

North Carolina law provides that any person owning or operating facilities for furnishing water and sewer service to the public for compensation is a public utility subject to Commission regulation, except when such person's sole operation consists of selling water to fewer than 15 residential customers.

As of December 31, 2021, 92 companies owned 1,793 water and sewer systems in Carolina regulated by North the including Commission. 1,458 water systems and 335 sewer systems. These utilities serve 126,234 water customers and 68.477 sewer customers in 69 counties across North Carolina. This information is summarized by county in Table 5-1 and the map in Figure 5-1. A complete list of companies in each county, the number of systems owned, and the number of customers served is provided in Table 5-2.

In 2021, the Commission received 23 applications for new franchises or notifications of contiguous extensions; 6 applications for transfer of franchises between utilities; 1 application for transfer of franchise to owner exempt from regulation; 5 bond filings; 2 petitions for appointment of emergency operators; and 5 formal complaints.

As of December 31, 2021, the Commission regulated 1,984 water and sewer resellers, as further detailed below.

B. STATISTICAL SUMMARY DATA

Figure 5-1 and Table 5-1 provide a summary by county of the number of Commission-regulated water and sewer utilities and their customers. Table 5-2 provides a detailed breakdown by county of the utilities serving customers in each

county, the numbers of water and sewer customers, and the numbers of systems.

Of the 92 water and sewer companies franchised to operate in 2021, 75 filed annual reports, and the current statistical and operating data is available for these 75 companies in Table 5-3. These companies reported receiving \$156,673,013 in annual water and sewer utility revenues in during calendar year 2021.

For the other 17 companies, which did not file annual reports for 2021, the most recent statistical data received by the Commission is presented in Table 5-4. The most current statistical data for these companies is included to illustrate the total scope of the regulated water and sewer industry in North Carolina. Some of these companies are under emergency operators, and although required to file financial information, it is not always in the form of an annual report. The Commission has adopted a simplified annual report which should encourage small utilities to minimum records of their maintain revenues and expenses. This should enable them to keep accurate records and provide them with the required information needed for general rate cases.

C. GENERAL RATE CASES AND OTHER ADJUSTMENTS TO RATES

The Commission decided two general rate cases involving water and sewer companies during 2021. These cases affected 661 water customers and 312 sewer customers. Of the cases decided, the total requested increase in water revenues was \$89,484 annually, and the Commission approved \$52,023. The requested increase in sewer revenues was \$40,267 annually, and the Commission approved \$40,267.

Pursuant to Section 62-133.12, enacted by House Bill 710 (Session Law 2013-106) in 2013, and Commission Rules R7-39 and R10-26, the Commission approved water system improvement charges (WSIC) and sewer system improvement charges (SSIC) for Agua North Carolina, Inc., and Carolina Water Service. Inc. of North Carolina in 2021. These additional WSIC/ SSIC approved revenues by the affected approximately Commission 111,702 water customers and 39,688 sewer customers. The total requested increase in WSIC revenues was \$859,525, and the Commission approved \$867,331. The total requested increase in SSIC revenues was \$709,474, and the Commission approved \$652,883.

The Commission approved 20 tariff revisions for the purpose of passing through to customers the increased cost of purchasing water/sewer utility service from other utilities, affecting approximately 11,329 customers and increasing annual water and sewer revenues by approximately \$471,761.

D. WATER AND SEWER BOND REQUIREMENT

In 1987, in House Bill 747 (Session Law 1987-490), the General Assembly enacted Section 62-110.3 requiring all regulated water and sewer utility system owners seeking authority to serve a new franchise territory to furnish a bond secured in an amount not less than \$10,000 nor more than \$200,000. On April 15, 1995, in Senate Bill 207 (Session Law 1995-28), Section 62-110.3 was amended eliminating the \$200,000 cap on the bond.

Bonds are posted for use by the Commission in the event that an emergency operator is needed to take over a system and also to provide an incentive for utility companies to properly operate and maintain their systems. Acceptable securities are obligations of the United States, obligations of the State of North Carolina, certificates of deposit, and irrevocable letters of credit. A total of \$22,200,501.19 in bonds had been posted as of December 31, 2021.

E. RESALE OF WATER AND SEWER SERVICE

In 1996, the General Assembly enacted Senate Bill 1183 (Session Law 1995-753), adding subsection (g) to N.C.G.S. § 62-110 and authorizing the resale of water and sewer service to persons contiguous occupying the same premises — including apartments, condominiums, and other contiguous residential units - at a rate or charge which does not exceed the actual purchase price of such service to the provider, plus a reasonable administrative fee. The law was subsequently amended to allow manufactured home parks and, ultimately, single-family homes to be served by resellers, removing the requirement that premises be contiguous.

In 2009, Senate Bill 661 (Session Law 2009-279) amended subsection (g) to allow resellers to use the hot water capture, cold water allocation method for contiguous dwelling units built prior to 1989 for billing purposes when metered measurement of all water consumed was not possible. In 2019, House Bill 432 (Session Law 2019-56) further amended subsection (g) to allow the lessor of the unit to pass through and charge the lessee a flat rate for water or sewer service when the lessor is charged a flat rate.

During 2021 there were 1,346 filings with the Commission regarding water or sewer resale. There were 185 applications for resale authority affecting 30,040 customers, resulting annual revenues of in \$20,686,038. There were 189 applications to transfer resale authority affecting 40.383 customers, resulting in net increased annual revenues of \$587,540. There were 970 filings to revise rates affecting 228,045 customers, resulting in increased annual revenues of net \$4,741,288. Resale authority was canceled for 53 service areas, affecting 9,324 customers and annual revenues of \$5,802,912. Seven filings were withdrawn or rendered moot by other actions.

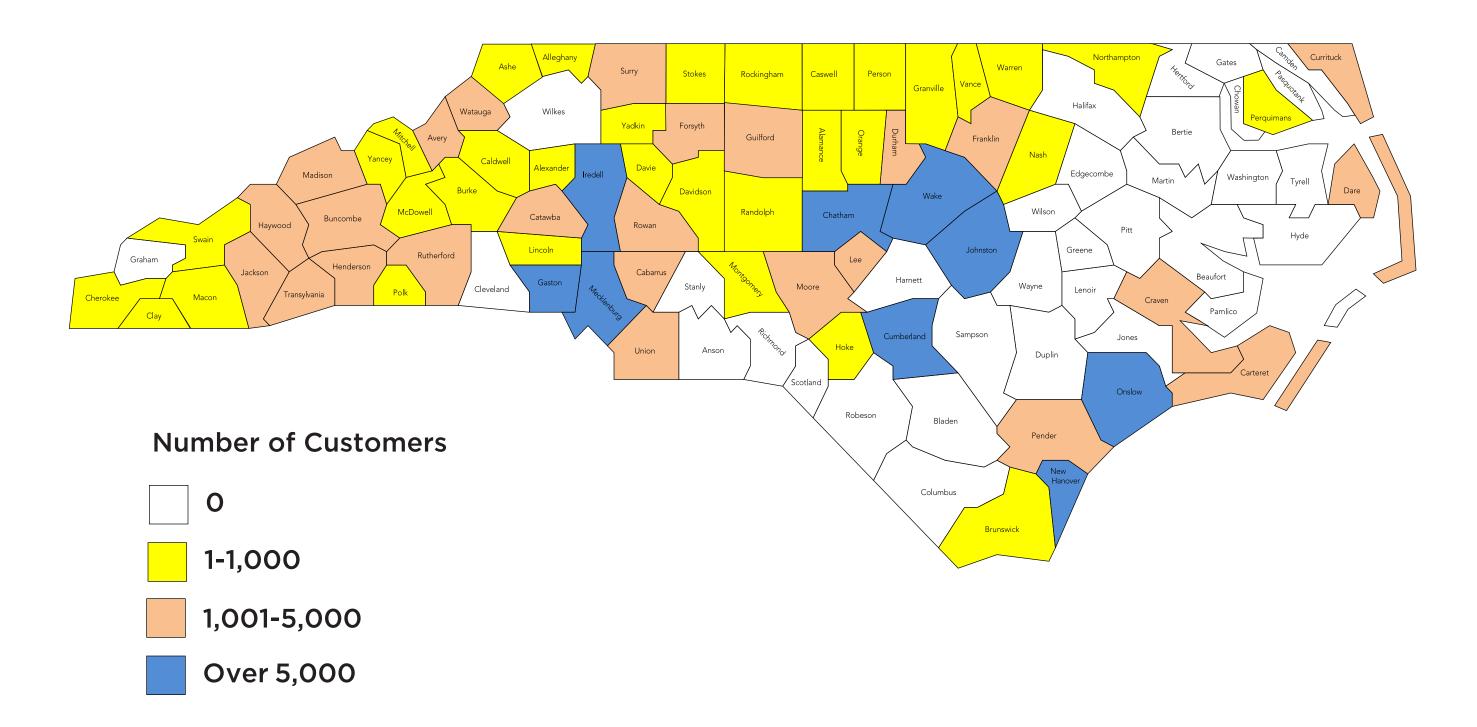

In 2021, the Commission issued six certificates for single family dwellings resale authority. There were also 73 annual address update filings for resale of water/sewer utility service in single family dwellings.

As of the end of 2021, the Commission had granted certificates of authority for resale of water or sewer service for approximately 1,810 apartment complexes, condominiums, townhomes, or mobile home parks and 77 single-family dwellings.

F. REGULATED VS. NONREGULATED MONTHLY CHARGES

Comparative monthly charges for residential water service of select nonregulated municipal systems and regulated water systems in North Carolina are shown in Table 5-5.

1 These rates represent the most current approved base rate plus the usage charge for the majority of the customers served by this utility.

2 Inclusive of Raleigh, Garner, Wake Forest, and Knightdale type of service.

3 These rates may vary depending on area served and if the residence includes water and sewer or just one type of service. These rates include the WSIC/SSIC surcharge, where applicable.

4 The City of Asheville provides the water service while the Metropolitan Sewage District of Buncombe Co. provides the wastewater services.

5 The City of Wilmington is no longer reflected on this chart, Cape Fear Public Utility Authority now provides utility services.

VI. TRANSPORTATION INDUSTRY

A. MOTOR CARRIERS OF HOUSEHOLD GOODS

Under North Carolina law, the Commission has continued to regulate intrastate motor carriers of household goods (HHG) after the rest of the trucking industry was deregulated in 1995. This jurisdiction does not include moves conducted by business customers or intracity moves.

Effective January 1, 2003, all HHG carriers must apply for and be granted a certificate of exemption in compliance with Article 12 of Chapter 62 of the North Carolina General Statutes, Commission Docket No. T-100, Sub 49, and Commission Rule R2-8.1. Such certificates are granted once the carrier has complied with the statutory and regulatory requirements, including criminal history records checks and verification of, insurance coverage.

The Commission and Public Staff, in conjunction with the North Carolina Movers Association, conduct monthly day-long seminars regarding the Maximum Rate Tariff (MRT), which governs all household goods moves within North Carolina. During the MRT seminars, the tariff is thoroughly reviewed, and a training session is held in which participants' rate sample moves. In 2021, a total of 224 representatives from the moving industry attended 10 virtual MRT seminars.

As of December 31, 2021, 334 companies were certificated as HHG carriers in North Carolina, of which 248 filed their 2021 annual reports.

Table 6-1 provides a summary of select operations financial data reported by HHG carriers for calendar year 2021. A complete list of the HHG carriers and the financial data for each is shown in Table 6-2. Operating revenues for North Carolina are from only household goods moved on intrastate tariffs regulated by the Commission; therefore, they may account for a small percentage of the total revenues generated by these carriers, who also provide military, international, interstate, and other nonjurisdictional household goods relocation services.

TABLE 6-1 SUMMARY OF HHG OPERATIONS ANNUAL REPORT INFORMATION – 2021

| Section I. | JURISDICTIONAL INTRASTATE HHG OPERATING REVENUE |
|------------|---|
| | |

| 1. 2. 3. 4. | Line Haul (MRT Section III) Hourly (MRT Section II) Packing and Accessorial (MRT Sections I & IV / Valuation) Total NC Jurisdictional Revenue: | \$ 22,916,066.83 \$ 70,902,351.30 \$ 14,741,234.79 \$ 108,559,652.92 | 21.11% 65.31% 13.58% |

| 13. 14. 15. 16. 17. | Quarter ended March 31, 2021 Quarter ended June 30, 2021 Quarter ended September 30, 2021 Quarter ended December 31, 2021 Total of Regulatory Fee Reports for CY 2021 | \$ 25,019,947.87 \$ 32,161,758.32 \$ 29,767,838.85 \$ 22,338,840.28 \$ 109,288,385.32 | 22.89% 29.43% 27.24% 20.44% |
| Section IV. | CARGO CLAIMS INFORMATION | | |
| 18. 19. | Number of loss and damage claims filed Total dollar amount of claims settled | 3333 \$ 931,594.19 | |
| Section V. | NC EMPLOYEE DATA | | |
| 20. & 21. 22. | Number of full-time NC employees & contract workers (W-2's & 1099's) Total salaries/wages paid to full-time NC employees & contract workers | 4907 \$ 130,317,164.69 | |

[1] Beginning with the annual reports for Calendar Year 2021, the Commission now requires such reports to be filed electronically rather the utilities providing paper copies. As a result of this new electronic filing requirement, HHG movers, were granted an extension of time to file their 2021 annual reports until the 4th quarter 2022. Thus, the amounts reported in this schedule have not yet been audited by the Public Staff.

[2] Of the total 334 HHG movers certificated by the Commission required to file annual reports for Calendar Year 2021, 86 have not yet filed their reports. Thus, the information for these 86 HHG movers is not reflected in this schedule.

Blanks are companies that have not filed annual reports. Zeros are companies that have filed annual reports, however, reporting zero NC income.

B. MOTOR CARRIERS OF PASSENGERS

In addition to the transportation of household goods, the Commission continues to regulate intrastate transportation of passengers by motor carriers, including private passenger ferry operators.

As of December 31, 2021, the Commission had granted authority to five transportation brokers, eight private passenger ferry operators, and two passenger bus operators. A transportation broker is an entity not a bona fide employee or agent of a motor carrier who engages in the business of selling or offering for sale any transportation of passengers by motor carriers for compensation, either directly or indirectly. A transportation broker does not itself own or operate the vehicles used to transport passengers.

A list of brokers, which are not required to file annual reports, is provided in Table 6-3. Select operations financial data for the two bus companies is provided in Table 6-4, and select operations financial data for the eight passenger ferry operators is provided in Table 6-5.
